21ART03: WATERCOLOURS – Colour Mixing

Type: Short Course

Dates: 02/02/2021 - 06/04/2021

Frequency: Short Weekly Course, Tue 9:30 - 12:00

Location: Glenhuntly Art Room 1151 Glenhuntly Road

Tutor: Ancita Beale

A course for anyone who wishes to explore colour, texture and technique, as you 'play with Watercolour Paints', enjoying a process rather than aiming for a finished product, learning how to manipulate this medium. Activities will include maintaining a journal of mostly hands on experimentation with paints, brushes and painting surfaces with some demonstrations and class discussions.

Participants will need to supply their own Watercolour-Journal, Paints, palette, brushes and suitable paper. No need to purchase anything until this is discussed at the first lesson. Initially, bring whatever materials and equipment you might already have. The tutor is happy to assist you in making informed decisions to build on your supplies

21ART04: Watercolours for beginners and advanced

Type: Long Course

Dates: 04/02/2021 - 19/11/2021

Frequency: Weekly Course, Thu 9:30 - 11:00

Location: Glenhuntly Art Room 1151 Glenhuntly Road

Tutor: John van Loon

This course is suitable for beginners and more advanced students. Please bring the following: - Drawing pad, 2B pencils, eraser and pencil sharpener. - Three round watercolour brushes: small, medium and large Need to be of reasonable quality. - Watercolour paint can be in pans or tubes. Suggested brands: Winsor & Newton, Art Spectrum, Royal Talens or Cotman. - Essential colours: Ultramarine blue, Cadmium Yellow and Vermillion red; also raw and burnt Sienna. Optional colours: Cerulean blue, Lemon yellow, Rose madder, Payne's Grey and Sap green permanent. - An old white plate or palette for mixing colours and a cloth or towel for cleaning and drying. A jar for water, and paper towels come in handy.

Unfortunately, art materials are not cheap but with inferior quality materials it is impossible to produce quality work and the good thing is, after the initial outlay, you will have many years of enjoyment from your first purchase. I still paint quite often and now my expenses are less than the cost of a cup of coffee per week.

Simplistically, Textile Art is what it says, the creating of Art using Textiles. That may sound straight forward; however the challenge is to decide on which method to use. There are many techniques or processes. I teach the following. Transfer Dyeing, Painting on fabric, Free Motion Sewing Machining, Hand Embroidery in a Non Traditional Way, Using a hot Soldering Iron to cut and seal the edges of Man Made Fibres, Machine Embellishing or Felting, Heating and Distorting of Fabrics. Often one piece of work can incorporate many techniques. I steer my students towards the Art side of using textiles, but what is created can often be turned into a useful article using a Craft technique at home. Having been a High School Teacher I am practiced in passing on my knowledge of T/A to enthusiastic beginners whatever the age group.

Ideas and language about God and gods in the world's major religions. Being religious means talking about the divine, but God-talk isn't the same for everyone. There are lots of issues that follow from the different ways that religious people have talked about divinity across their diverse faiths. These issues challenge atheists, too. This course will look at a variety of God ideas across the centuries, and it will ask the challenging question, What do we mean when we talk about God?

Note that this is a Zoom Only Course throughout the whole duration of the course. Starting date is 1 Feb and then runs fortnightly throughout the first semester.

Type: Long Course

Dates: 02/02/2021 - 19/11/2021

Frequency: Weekly Course, Tue 13:15 - 15:15

Location: ZOOM ONLY

Tutor: Murray Mehmet

Apart from the Indigenous nations of this land we are all descendants of people who have come from many other lands since 1788. In the lead up to the Australian Federation in 1901, there was something fermenting in the country that made many of the 1st, 2nd & 3rd generation locally born of mainly European descent, begin to identify themselves as "Australians" rather than exiles from the mother land. Think the laconic, happy go lucky, resourceful bush bloke, who could fix anything with a bit of wire or some bailing twine, the stoic drover's wife, women's suffrage and the jolly swagman etc. Ideas promoted by the likes of Henry Lawson, the bush poets like Banjo Paterson and exemplified by the attitudes conveyed in Miles Franklins My Brilliant Career. This unit will look at the events and issues that have shaped the Australian character since European settlement, pre and post Federation, and ask the question is there really such a thing as specific Australian values; and if so what are they and how can they be conveyed to the future generations of increasing multicultural diversity. Being U3A members, you are over 60 and are likely to have grandchildren and great grandchildren and/or nephews and nieces. Hopefully you will find this unit interesting, challenging and fun, and it will provide you with the opportunity to reflect upon the kind of Australia you hope future generations will inherit. Part history, part discussion of contemporary issues. We will be using writings, films/documentaries/video clips and music. Hopefully well balanced, entertaining, flexible, challenging but not too demanding.

Note that this is a Zoom Only Course throughout the whole duration of the course. You will be expected to buy or borrow a copy of "The Words That Made Australia; How a nation came to know itself" edited by Robert Manne. Available from Black Books at about \$20 or possibly from the library. Note that this course will be initially run via zoom. However, it will be conducted in Glen Huntly Purple Room, when we are allowed for face-to-face teaching.

Location: Various Bike Tracks

Tutor: Murray Mehmet

I am calling this a bike group as compared to a cycling group because it is intended for those looking for some pleasant outdoor exercise. Participants need to be reasonably fit and competent on a bike, however it is not a race; we are not the Bay Rd Peloton! Most rides will be on the off-road bike paths that can be accessed from Glenhuntly, however on occasion we may use the train system to access routes further afield such as the Merri Creek, Moonee Ponds Creek and Diamond Creek-Yarra Trail (All activities will be run in accordance with prevailing Covid-19 restrictions, assuming that they have been relaxed and it is permissible and safe to do so)

Participants should feel comfortable riding a bike, and understand that for most rides they will be in the saddle for at least two to three hours. Participants need to have a well maintained bike. Local bike stores will be able to assess and assist you if you are unsure about the appropriateness of your bike. Also be sure to carry a MyKi card with sufficient credit. Please also carry a spare tube for your bike. While we will be able to assist you if you have a flat, a spare tube that fits your bike, will make getting back on the road much quicker.

A class for people wanting to learn Spanish from scratch. This course assumes no prior knowledge of Spanish.

The teacher writes: I am NOT a native Spanish speaker but I've been trying to learn Spanish for a number of years, and in this process I've come across what I think are some really good ways to get the basics of Spanish fairly quickly. The course is a 'short course', just for one semester, mainly because I'm not confident enough of my Spanish to take the class further than that. I will not be able to answer all your questions, and when I don't know something I will say so. But I have a pretty good idea of correct pronunciation, and I have also picked up some good tips along the way that native speakers may not be aware of because they learned the language 'by ear' as they were growing up, and not as a 'foreign language' with grammar and rules. In the course we will use the book 'Easy Spanish Step-by-Step' by Barbara Bregstein, which all students are encouraged to buy.

Post beginners' class is for those with a basic vocabulary and basic knowledge of how Spanish works, having completed an introductory or beginners' course. We will have a focus on speaking, using mini talks, dialogues and listening exercises. Pronunciation, reading, writing and grammar will also be included. Topics and vocabulary covered are suitable for visiting a Spanish speaking country and communicating with locals in every day situations.

Needed to have done a beginner's course. We will be using "Talk Spanish 1" pack which includes book and 2x60 min CDs (2014 edition or more recent). You will need to have your own book and CDs. My career as an English as a second language teacher has helped me learn Spanish over the past four years and I've enjoyed every minute of it. Learning a language is fun and it's a real feeling of accomplishment to communicate effectively in another language. Mucha suerte a todos. Good luck to everyone!!!
